

Python FullStack

CERTIFICATION COURSE

**Master Python FullStack and Elevate
Your Career to New Level !**

Python FullStack

The Python Fullstack Development Course, offered by W3 Technologies, will equip you with the skills to build efficient and scalable applications using both front-end and back-end technologies. You'll learn to break down complex problems into manageable components, focusing on Python syntax and best practices for clear, maintainable code. This course emphasizes web development frameworks, database integration, and modular design to build a solid foundation in fullstack development with Python.

Why W3 Technologies

Training at W3 Technologies equips you to excel in today's competitive world. From the very beginning of your journey with us, you'll experience continuous growth through learning. We provide support throughout the course, while encouraging you to become independent and confident in your skills.

Lower Learning Cost

Learning with us is budget-friendly. Our courses are affordable yet provide comprehensive and engaging content.

Expert Instructors

Learning with us means benefiting from top-tier expertise. Our expert instructors provide deep knowledge and engaging lessons.

Certification

Earn an industry-recognized certification upon completing the course, enhancing your resume.

Core python

- Operators
- Data types
- Control statements
- String handling
- Data structures
- Functions
- Packages
- Collections

ADV. Python

- OOPS
- Regular expressions
- Exception handling
- File handling
- PDBC (Database)
- Network/ socket programming

Database

- Mysql & monogoDB

python for data science

- Numpy
- Pandas
- Matplotlib

Frameworks

- Django
- Flask
- RestAPIS

UI (User Interface)

- HTML
- CSS
- JavaScript
- Bootstrap

Angular

- Introduction to Angular
- Typescript
- Components Overview
- Components & Data-binding
- Directives
- Services & Dependency Injection
- Transport Output using Pipes
- Changing Pages with Routing
- Template Driven Forms
- Reactive Forms
- Making HTTP Requests
- Authentication and Route Protection
- Angular Modules and Optimizing Apps
- HttpClient
- Angular Animations
- Unit Testing

Tools

- Git & GitHub
- Docker
- Unit Testing
- Integration Testing
- AWS Basics

Thank You for Choosing **W3 Technologies**

Thank you for choosing to explore this course from W3 Technologies. We hope you find it insightful and valuable as you embark on your learning journey.

At W3 Technologies, we believe that learning is a continuous process, and we are excited to be part of your journey towards gaining new skills and knowledge.
